

Temperature and Correct Solvent Choice

DBC/DCC

- DT860 **Cool** Temp. 60-70°F
- DT870 **Mid** Temp. 65-80°F
- DT885 **Warm** Temp. 75-85°F*
- DT895 **Hot** Temp. 85-95°F
- DT898 **Hot** Temp. 95°F and Higher

Faster

Slower

*For larger jobs pick a slower reducer then temp range calls for

*For better results a mixture of reducers can take place, must be in consecutive order (no "leap-frogging")
