

MAXIMUM PERFORMANCE SYSTEM

Ideal for high-production collision centers seeking an efficient system offering fast cycle times. This system is approved for OE refinish warranty work.

ETCHING PRIMER

SX1071 ONECHOICE® Etch Prime

Excellent adhesion and corrosion resistance with fast dry characteristics.

SURFACER

DPS3055 V-PRIME™ Acrylic Urethane Surfacer

Premium quality, high-build, fast-drying, easy to apply and sand surfacer available in white, gray, and dark gray.

SEALER

DAS3025 V-SEAL® Acrylic Urethane Sealer

Premium quality, fast-drying sealer with superior flow properties and excellent gloss holdout. Can be applied directly over unsanded OEM e-coat. Available in white, gray and dark gray.

BASECOAT

DELTRON 2000 BASECOAT (DBC)

High-performance quality designed to reproduce today's OEM finishes.

CLEARCOAT

DC2000/DC3000/DC4000

High velocity, high-quality clearcoats specifically developed to enhance productivity.

With its full range of easy-to-use products and systems, the *Deltron* brand offers productive solutions to meet every conceivable need of the traditional collision repair shop.

System Selection Guide

This selection guide is designed to help choose the right DELTRON® products and system to match operating demands and performance needs.

PERFORMANCE SYSTEM

Ideal for collision centers seeking an easy-to-use performance system of proven products offering the durability and adaptability to various application areas.

ETCHING PRIMER

SX1071 ONECHOICE Etch Prime

Excellent adhesion and corrosion resistance with fast dry characteristics.

SURFACER / SEALER

K36 PRIMA™ Acrylic Urethane Primer

High-build, fast-drying, with superior color holdout and sanding qualities.

BASECOAT

DELTRON 2000 BASECOAT (DBC)

High-performance quality designed to reproduce today's OEM finishes.

CLEARCOAT

DCU2042/DCU2021 CONCEPT® Clears

Mid-tier clears capable of matching OEM gloss with minimum time and effort.

FAST AIR-DRY SYSTEM

Ideal for collision centers seeking a system with fast air-dry times for spot and panel repairs.

ETCHING PRIMER

SX1071 ONECHOICE Etch Prime

Excellent adhesion and corrosion resistance with fast dry characteristics.

SURFACER

DPS3105 V-PRIME Quick Prime Urethane Surfacers

Quick-drying, versatile urethane surfacer delivers high build, fast dry-to-sand times and excellent resistance to film shrinkage.

SEALER

DAS3025 V-SEAL Acrylic Urethane Sealer

Premium quality, fast-drying sealer with superior flow properties and excellent gloss holdout. Can be applied directly over unsanded OEM e-coat. Available in white, gray and dark gray.

BASECOAT

DELTRON 2000 BASECOAT (DBC)

High-performance quality designed to reproduce today's OEM finishes.

CLEARCOAT

DC2000 Ultra Velocity Clear

Requiring no flash time between coats, the superfast air dry capability of this "wet-on-wet" clearcoat facilitates exceptional repair cycle times.

SINGLE-STAGE SYSTEM

Ideal for all collision centers needing a quality system when a single-stage finish is required for easy matching.

ETCHING PRIMER

SX1071 ONECHOICE Etch Prime

Excellent adhesion and corrosion resistance with fast dry characteristics.

SURFACER

NCP270/271 Corrosion Resistant Primers

Premium quality, corrosion-resistant primer developed for today's advanced technology finishes—free of chrome, lead and isocyanates.

SEALER

NCS200X Sealers

NCS series are isocyanate-free and available in three colors: white, gray and black. Can be tinted with DMC mixing bases.

TOPCOAT

DCC CONCEPT Acrylic Urethane

Premium quality, single-stage topcoat designed to offer exceptional gloss and color match. Available in solid and metallic colors.
